Work Experience

Junior Web Developer   **Disability Rights California**   **March 2022 - Present**
Impact - Created, updated, and tested various different web pages for public events, resources, and legal documents with my communications team. Increased productivity, web traffic and web event attendance by 32% through implementing signup pages and invite emails to promote all web events built with HTML, CSS, Javascript and MailChimp.

Contract Web Developer   **Red Bison**   **October 2022 - Present**
Impact - Developed a static promotional site for Red Bison, a prop-tech and managed services company who provides innovative commercial building technologies and high quality management tools. I lowered site risk to 0% and increased site speed by 88% and web traffic by 22%.
